

***Full furniture solution for
Your micro - market***

Full cost effective furniture solution for your micro market

Finding the right micro market solution is time consuming and unnecessary.

Importec Ltd in combination with you will provide an easy to use solution to maximise profits and save you time and effort.

Within our solution, we will provide a range of modulated well presented furniture fixtures in 5 different colours. We will add branding to make your concept unique to you.

*As a free service to you:
We will provide you with an initial design consultant who will answer every question you will have.*

A project management team will then add efficiency to make sure the correct solution is delivered.

You will gain 3D imagery to visualise the final product before ordering.

Therefore with just one point of contact you be provided with everything you need for a strong, high quality micro market that will survive the day to day rigors of constant use.

Full solution for the micro market

The method to our one stop solution;

- 1) One email to our design consultant and you will start the process of building up the micro market.***
- 2) We establish the size, requirements and location of the desired placement.***
- 3) We produce 3D visual illustration of the micro-market should you request this.***
- 4) The Project development team are your constant point of contact throughout and will support adaptations, logistics, financing, branding and any other needs you have during the process.***
- 5) Once the final agreement is made, a full manufacturing and logistics package will be collated and the micro-market will be produced and delivered.***
- 6) We will provide you with a date for delivery.***
- 7) We provide installation training if required.***
